

# The Technology and Talent to Optimize Outcomes in Your OR

Too often, the surgical equipment designed to move you toward improved outcomes leaves your patients waiting and OR teams expecting more. In fact, many ORs lack the time, process or trained technical talent needed to effectively optimize the use of their surgical lasers across their hospital or IDN – often increasing case delays, cutting into ROI, increasing compliance risk and leading to patient and staff frustration. Agiliti solves these challenges by giving OR staff access to best-in-class technology, certified and experienced laser operators and proven laser safety processes to ensure compliance, maximize OR throughput and provide an optimal patient experience.

Drive OR efficiency and optimal outcomes with Surgical Equipment Solutions from Agiliti. We offer a full complement of cutting-edge technology and technical talent to ensure you meet the variable case demands of your OR.

## DRIVING MEASURABLE IMPROVEMENTS

Contact your local Agiliti representative for more details or visit [www.agilitihealth.com/surgical](http://www.agilitihealth.com/surgical)

Agiliti offers a range of surgical equipment solutions. Each offering includes access to online case scheduling, aggregated laser log documentation and actionable data and analytics.

## Surgical Equipment Rental

Agiliti provides state-of-the-art surgical lasers and equipment to support positive outcomes for both your patients and your business. We handle all cleaning, maintenance and disposables while providing reporting to ensure compliance. Agiliti also provides experienced and certified technicians to ensure optimal equipment operation during every case.

## Tech-only Services

For owned equipment, Agiliti can provide highly experienced and certified technicians to operate surgical lasers and other specialty surgical equipment. This reduces the risks and burden of your OR staff dedicated to the operation of devices without certified training.

## Onsite Management Program

A complete surgical equipment management solution: the latest technology in the Agiliti fleet, highly trained technicians and equipment logistics experts — all onsite, ready to meet dynamic and emergent case needs. Optimize utilization of hospital owned equipment, while gaining quick access to equipment when needed.

## IDN Optimization Program

The variable use of surgical equipment can make it difficult to optimize the use of each device at the IDN level. Agiliti provides a specialized analytics and operational solution to optimize equipment utilization, lower cost-per-case and maximize ROI across your network of hospitals.

## Surgical Technology Portfolio

Per-case access to a complete range of best-in-class surgical equipment. We adhere to the highest industry and patient safety standards for managing, maintaining and operating surgical technology — covering more than 85,000 cases every year.

AESTHETIC SURGERY	CARDIAC SURGERY	ENT
GASTROENTEROLOGY	GENERAL SURGERY	GYNECOLOGY
MINIMALLY INVASIVE IR	NEUROSURGERY	ONCOLOGY
OPHTHALMOLOGY	ORTHOPEDICS SURGERY	PODIATRY
PULMONOLOGY	UROLOGY	VASCULAR

### About Agiliti

Agiliti helps hospitals reclaim millions of dollars in wasted medical equipment. The company places equipment management experts and clinical engineers in more than 7,000 hospitals to ensure that the right equipment is in the right place at the right time. Onsite services free nurses and other clinicians to spend more time caring for patients and less time searching for the equipment they need. Agiliti also provides responsive rental services for a full range of equipment, including respiratory systems, infusion therapy devices, specialty beds and surgical lasers. A nationwide network allows the company to serve all health systems and hospitals across the U.S.
